PERSONAL PROJECTS

Agricultural Website(AgroGlow) - Running - Nodejs (10/2020 - Present)

- I will use Bootstrap, jquery, Nodejs, Express, Mysql in this project.

An Online Book Sharing Platform(BOICHOKRO) - PHP (07/2020 - 09/2020)

- This is An Online Book sharing platform where user can open his/her personal profile and then can download book and upload book from this web application. There is another feature also. That is admin. Admin can control hole system.
- I think this web application is user friendly enough. And also secured for user.

Car Rental System - c# (2019)

- This is a group work.
- This application is most preferable for those people who want to rent car for long time(1/2 week)
